PRODUCT DISPLAYS

PROTECTION FOR LIFE

To our valued partners,

Since 1987, Wiley X has been built on one uncompromising mission: to be the leading provider of innovative eye protection worldwide. That mission began with my father, a U.S. Veteran who founded this company to protect those who protect us. Decades later, that same purpose continues to guide everything we do.

As we move into 2026, we are focused on evolution and expansion. This catalog represents the next chapter of that journey, showcasing our aggressive push for new product development and our continued dedication to expanding our U.S. assembly capabilities. We are redefining performance eyewear through modern design and American craftsmanship, ensuring our gear meets the highest standards of quality.

We know that for our customers, life doesn't stop when the shift ends. The men and women who rely on Wiley X are not defined by their work alone; they are defined by their passions. They value freedom, family, and the call of the outdoors. They need eyewear that transitions seamlessly from the rigors of on-the-job performance to the joys of an off-the-clock, adventurous lifestyle.

Whether they are serving on the front lines, working a trade, or exploring the wild with the people they love, they deserve gear that gives them absolute confidence. Central to this promise is our unwavering commitment to Protection for Life. This isn't just a tagline; it is the standard found in the eyewear we create and sell. It guarantees that in every environment—from the job site to the open road—their vision is safeguarded.

Thank you for being part of this journey. Together, we are equipping a community that works hard, plays hard, and protects what matters most.

Sincerely,

Dan Freeman, CEO and Co-Owner

LENS TECHNOLOGY

CAPTIVATE™ is our premium lens technology, available in both polarized and non-polarized options, engineered to precisely manage light for enhanced color, sharper contrast, and superior optical clarity. Paired with certified impact protection and provendurability, CAPTIVATE™ delivers a clear advantage with performance customers can see and trust in any environment.

CAPTIVATE™ LENS BENEFITS

SHARPER DETAIL

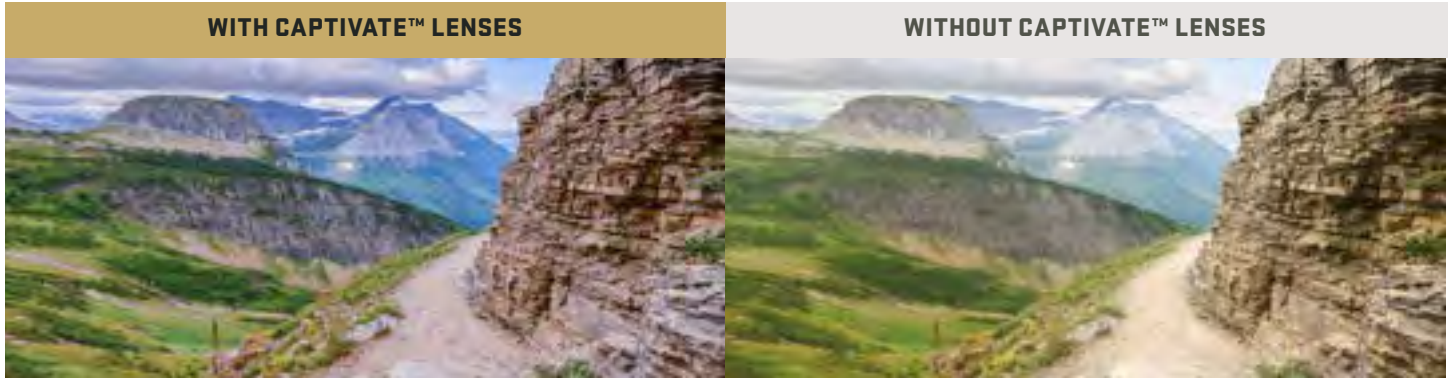

Reveals features in your environment normally missed by the naked eye.

INCREASED CONTRAST

Improves depth perception in conditions where light and shadows distort vision.

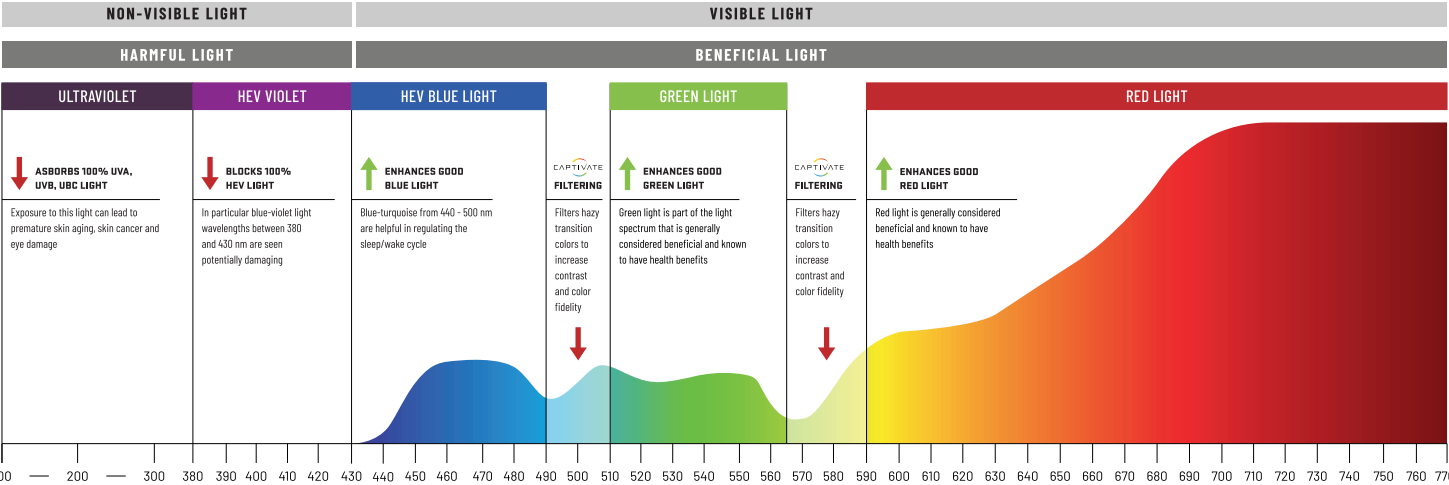

ENHANCED COLOR

Provides color separation to make surroundings appear more vivid and vibrant.

TARGETED FILTERING FOR VISUAL CLARITY

The human eye struggles to distinguish certain wavelengths of light, especially where colors overlap, which can reduce clarity. CAPTIVATE™ lenses are engineered to precisely filter out haze and high-energy blue light while enhancing the colors the eye relies on most. Unlike lenses that broadly block light, CAPTIVATE™ delivers sharper contrast, more natural color, and reduced distortion for clearer vision in any environment.

LENS ANATOMY

CAPTIVATE™ LENS OPTIONS		STANDARD LENS OPTIONS
GREY BASE LENSES		LENS OPTIONS
	CAPTIVATE™ POLARIZED BLUE MIRROR Reduces bright glare on the water. <i>Light Transmission: 11%*</i>	 SMOKE GREY Reduces glare in bright light while preserving a natural visual experience. Light Transmission: 15%
	CAPTIVATE™ RED MIRROR / POLARIZED RED MIRROR Improved depth perception in bright sun. Keeps colors true. <i>Light Transmission: 15%*</i>	 PHOTOCHROMIC CLEAR TO GREY Adaptive tint shifts from clear to grey for effortless clarity anywhere. Light Transmission: 81% to 17%
	CAPTIVATE™ GREY / POLARIZED GREY Even contrast for everyday activities. <i>Light Transmission: 13%*</i>	 SILVER FLASH / POLARIZED SILVER FLASH Great for bright and sunny conditions across all environments. <i>Light Transmission: 15%</i>
	CAPTIVATE™ BLACK MIRROR / POLARIZED BLACK MIRROR Enhances detail with a natural view of colors. <i>Light Transmission: 11%*</i>	 LIGHT RUST Enhances contrast in medium to low-light conditions. <i>Light Transmission: 52%*</i>
	CAPTIVATE™ TUNGSTEN MIRROR / POLARIZED TUNGSTEN MIRROR Provides optimal vision in all lighting conditions. <i>Light Transmission: 10%*</i>	 VERMILLION Best for medium to low-light conditions. Sharpens contrast and brightens targets. Light Transmission: 45%*
COPPER BASE LENSES		 CLEAR Maximum light transmission. See precise color values. Hazy or overcast, dusk/dawn conditions. Light Transmission: 89%*
	CAPTIVATE™ BRONZE MIRROR/ POLARIZED BRONZE MIRROR Provides tint for lowlight activities. <i>Light Transmission: 15%*</i>	
	CAPTIVATE™ POLARIZED GREEN MIRROR High-contrast for outdoors. <i>Light Transmission: 12%*</i>	
	CAPTIVATE™ GOLD MIRROR High contrast clarity great for trails and grasslands. <i>Light Transmission: 12%**</i>	
	CAPTIVATE™ POLARIZED COPPER Vivid color for variable light conditions. <i>Light Transmission: 17%**</i>	
SOLID BASE LENSES		
	CAPTIVATE™ CLEAR Enhances color perception and provides maximum light transmission. 78%*

PROTECTION

At Wiley X, protection is our promise. By pushing every frame to surpass the highest safety and optical benchmarks, we empower wearers to see clearly, perform boldly, and trust their eyewear in the moments that matter most.

ANSI HIGH-MASS IMPACT TEST

To prove their strength, Wiley X frames and lenses are tested by dropping a heavy 1.1 lb weight from over four feet directly onto them. This ensures they can handle sudden blunt impacts to protect eyes from the unexpected.

ANSI HIGH-VELOCITY IMPACT TEST

Wiley X eyewear is tested to stop fast-moving objects. To pass, the lenses must withstand a steel ball about the size of a marble (.25”) fired at 150–160 mph for glasses and up to 250–260 mph for goggles. This ensures protection against flying debris and unexpected impacts.

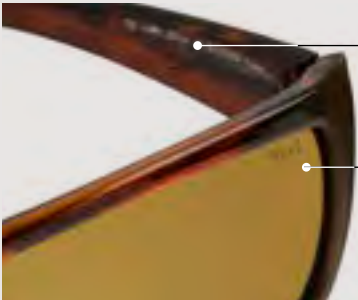

V0 BALLISTICS

Our Tactical eyewear is built to the same standards trusted by the U.S. military. Each frame and lens is tested against extreme impact (a .15 caliber projectile at 700–725 fps for glasses and a .22 caliber projectile at 580–590 fps for goggles) to simulate battlefield shrapnel. Select models are also APEL (Authorized Protective Eyewear List) approved, meaning they meet the military’s strict requirements for combat-ready eyewear. Proof that Wiley X can perform where protection matters most.

ANSI FRAME & LENS MARKINGS

Every Wiley X frame and lens is marked with safety codes that prove it has passed ANSI testing. These codes show what type of protection and features the eyewear provides.

- Z87** Meets the ANSI Z87.1 safety standard for impact protection.
- 2** Frame can be fitted with prescription lenses.
- +** Certified for high-velocity and high-mass impact (stronger than basic ANSI).
- S** Lens is shaded or tinted (not clear).
- V** Lens is variable tint / photochromic (light-adjusting).

These markings are your guarantee that Wiley X eyewear has been tested to withstand real-world impacts and protect eyes in demanding conditions.

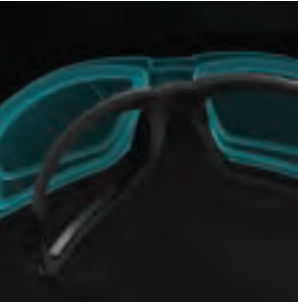

FRAME TECHNOLOGY

In order to meet the demands of harsh environments and ensure optimal performance, many of our products are designed with additional performance features. These features are specifically tailored to withstand extreme conditions and provide enhanced functionality in any environment.

DYNAMIC VENTILATION

Engineered to combat fogging in any condition. The Dynamic Ventilation system integrates with the Removable Facial Cavity™ Seal, giving wearers control over airflow. Open side vents to clear condensation or close them for full protection. Featured on the WX Breach.

REMOVABLE FACIAL CAVITY™ SEALS

Designed for maximum eye protection and clarity. The soft foam Facial Cavity™ Seals block fine dust, pollen, wind, and peripheral light to enhance comfort and allow polarized lenses to perform at peak levels. Standard on all Performance models.

ANSI Z87.1+ SIDE SHIELDS

Meets the demand for adaptable protection. Active 6 and Worksight models include removable and permanent side shields to ensure ANSI Z87.1+ compliance while maintaining a professional look.

SUSTAINABLE FRAME MATERIALS

Next-generation durability with eco-conscious design. Our latest frames use bio-based materials that are lightweight, flexible, heat- and UV-resistant, and BPA-free. Built to deliver superior performance while upholding Wiley X’s strict impact protection standards.

WILEY X AUTHENTIC PRESCRIPTIONS

As a company that specializes in high-wrap sport and safety eyewear, it’s imperative that we provide the same clarity and protection to prescription-lens wearers as we do to those without prescription requirements. We’ve spent decades innovating and refining our technology to ensure that every pair of prescription glasses we build inspires confidence in everyone who wears them.

THE WILEY X DIFFERENCE

Through the Wiley X Authentic Prescription Program, we’re able to provide our customers with:

- The highest Rx ranges in the industry for safety and sport-wrapped frames (-10/+6 in our Active 6 series and up to -7/+5 in most wrapped styles).
- Precise prescriptions for high-wrap frames.
- CAPTIVATE™ color enhancing lens technology.
- A full service lab with an in-house coating facility.
- A dedicated Rx support team.

COMPARE THE DIFFERENCE

This is a side-by-side comparison of the same Wiley X frame with an authentic Wiley X prescription versus one without. You’ll notice the other lab’s frame has splayed-out temples and a thicker lens protruding out of both sides. Ours has a thinner lens and no frame distortion, providing a more comfortable and aesthetically pleasing pair of eyewear.

ANOTHER LAB’S RX

WILEY X AUTHENTIC PRESCRIPTION

DIGIFORCE™ DIGITAL LENSES

Digiforce™ is Wiley X’s proprietary technology which takes into account frame fitting position, prescription, vertex distance, pantoscopic tilt and eye movement patterns to create the most accurate prescription possible in our high wrap frames.

BENEFITS OF DIGIFORCE™ LENSES:

- 10 times more accurate than conventional surfacing.
- Provides the patient with an exact prescription, rather than rounding to the nearest setting in conventional lenses.
- Maximizes field of view with edge-to-edge clarity.
- Wrap compensation allows us to customize a patient’s prescription specific to their lifestyle and vision needs.
- Easier patient adaptation to high-wrap frames.

LENS TREATMENTS:

- Anti-Scratch Coating
- Permanent Anti-Fog Coating
- Standard Anti-Fog Coating
- Anti-Reflective Coating
- WX Blue Anti-Reflective

LENS OPTIONS:

- CAPTIVATE™ Polarized
- Polarized
- Non-Polarized
- Photochromic

DIGITAL EDGE THINNING

Our proprietary Digiforce Digital Edge Thinning technology is offered exclusively through Wiley X and allows for a high prescription with the thinnest lens necessary to still meet safety standards.

WHY WE USE IT

Digital Edge Thinning was created to accommodate high prescriptions in wrap around sport and safety glasses while still providing an aesthetically pleasing pair of eyewear with minimal distortion.

WHAT IT LOOKS LIKE

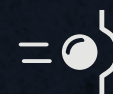

Digital Edge Thinning mirrors the frame shape by concentrating the optics centrally. This creates a slight plano area on the outer edge of each lens.

ACTIVE 6 SERIES

Precision-built and purpose-driven, the Active 6 Series delivers modern style with job-ready protection. A flatter lens design offers a refined fit, while impact ratings that exceed industry standards ensure performance your customers can count on.

PRODUCT WARRANTY

NON-PRESCRIPTION WILEY X, INC., EYEWEAR

A lifetime warranty covering all manufacturing defects in material and workmanship.

NON-PRESCRIPTION JOHN DEERE® AND DVX™ EYEWEAR

Warranted against defects in materials or workmanship for a maximum period of 1 year. (John Deere® warranty applies to USA and Canada only).

PHOTOCHROMIC (LIGHT ADJUSTING™) LENSES

Warranted against defects in materials or workmanship for a maximum period of 18 months (proof of purchase for Photochromic Light Adjusting™ lenses is required).

GLOVES

Warranted to be free of manufacturing defects in material or workmanship for a maximum period of 2 years.

SCOPE OF COVERAGE

Wiley X will replace covered items at the sole discretion of Wiley X, as needed and as available (identical or equivalent style) at no charge. Out of warranty items may be replaced, or destroyed, at the option and sole expense of the purchaser.

EXCLUSIONS

This product warranty and prescription warranty below does not extend to and excludes:

- a) All Wiley X products purchased through any non-authorized 3rd party websites, dealers, or labs.
- b) Damage resulting from normal wear and tear (i.e., scratched lenses).
- c) Damage resulting from abuse, misuse, tampering, customer modification, exposure to harmful substances, elements, or conditions.
- d) Lost or stolen item.

WX PRESCRIPTION WARRANTY

RX WARRANTY

Prescription orders processed through Wiley X, Inc. will have a two (2) year warranty from the date of purchase on frames and lenses deemed by Wiley X, Inc. to have manufacturing defects. Prescriptions filled by non-authorized labs will void all Wiley X, Inc. frame and lens warranties. Prescription frame and lens warranties must be handled through the local retailer / dispensing optician from which they were originally purchased.

CAPTIVATE™ RX WARRANTY

Wiley X, Inc. will provide a one (1) time scratch redo on CAPTIVATE lenses that covers against basic surface scratches due to normal wear, along with crazing and peeling for two (2) years from the date of purchases. Scratches caused by improper care or abuse are not covered by this warranty. The customer will receive eyewear in the identical form (same frame, lenses, prescription, etc.)

SCRATCH/COATING RX WARRANTY

Wiley X, Inc. will provide a one (1) time scratch redo for lenses with frontal surface scratches due to normal wear for one (1) year from the date of purchase. If a coating was purchased (anti-reflective, anti-scratch, anti-fog, or a mirror) the warranty is extended to a one (1) time redo within two (2) years from the date of purchase. The customer will receive eyewear in the identical form (same frame, lenses, prescription, etc.)

DOCTOR REMAKE

A one (1) time doctor remake on Wiley X, Inc. made prescription lenses is permitted within a forty-five (45) day period from the original order date. The dealer will be charged in full for the remake then will subsequently receive a credit when the original prescription glasses are returned to the Wiley X, Inc. Prescription Department. Original orders must be returned within thirty (30) days of the remake order. All doctor remakes will be billed a \$10.00 shipping fee.

RX CHANGES/CANCELED ORDERS

If the lenses are not in process, prescription changes and order cancellations will be accepted at no charge. Any requests made after a customer order has been put in process will be charged at 50% of the dealer cost.

NON-ADAPTS

Dealer will have forty-five (45) days to return a prescription order that is deemed "non-adapt" by their customer. In this instance, the dealer will receive a full refund on the frame and 50% credit on the RX lenses and coatings. No credit or refund will be issued for non-adapts submitted after forty-five (45) days.

LAB ERRORS

In the event of lab error, prescription lenses will be replaced at no cost within a forty-five (45) day period of the original order date. Redo will be credited upon receipt of original frame and lenses.

PATIENT OWNED FRAME (POF)

Wiley X, Inc. accepts POF orders, however, frames must pass Wiley X, Inc. quality inspection. Prior to sending the POF, please verify that the prescription and the measurements are within the tolerance of the Wiley X, Inc. RX Frame Parameters. Please remove any existing prescription or non-prescription lenses from the frame prior to shipping. Wiley X, Inc. will not provide any warranty or be held responsible for any lost or damaged lenses on previous prescriptions sent in with a frame.
